HOPO

G62 Slim Sliding Triple Linkage System

Hardware control system

Very Durability | Extra-wide Opening | Sound Insulation | Heavy Duty | Hands-free Operation

Hanging wheel is a power and sure-fire. HOPO

Minimalist Design, Sleek Appearance

Hardware design with a sleek and minimalist appearance that seamlessly integrates into a modern home.

Adjustable gap between the movable and the panel. Allow ±8.0 for top and bottom of hanger and bottom.

Easy Installation & Efficient Assembly

Integrated design of top roller and buffer system, lightweight.

Complete hardware installation without drilling holes on the door panel, saving time and effort.

Installation of top roller requires no special tools, making assembly easy and fast.

Hardware equipped with detachable door, simplifies removal, making maintenance faster.

Anti-sway and Anti-shake

Equipped with anti-sway and anti-shake, ensuring the door panel maintains the smoothness of door sliding.

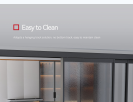
Smooth Sliding

Adjustable damper on the bottom linkage rollers ensure smooth and silent door movement.

Easy to Clean

Hidden hanging wheel and rollers, no bottom track, easy to maintain, clean.

Application Scenarios



Kitchen Partition

Living Room Partition

Bathroom Partition
